National Association of Corrosion Engineers (NACE) was founded by eleven corrosion engineers in Houston, Texas USA in 1943 and renamed as NACE International. The Corrosion Society in 1993. It is recognized around the world as the premier authority for corrosion control solutions. With more than 36,000 members from over 130 countries, NACE International has more than 350 technical committees covering the entire gamut of applications related to corrosion and its control. NACE international endeavors to achieve its mission of protecting people, assets and the environment from corrosion by publication of standards/recommended practices, reports, books, organization of education training programs and annual conferences.

Established in 1992, NACE International Gateway India Section has become one of the largest and most active sections of NACE International through its significant efforts for the promotion of corrosion awareness in India. It has done this by organizing annual conferences/seminars as well as education programmes and workshops on a regular basis. NIGIS is committed to promote NACE International’s mission in India through its expanding membership and activities. With more than 1100 members, NIGIS has organized over 152 CIP Level I, 2 & Peer Review, CIP 2 Emphasis, Nuclear course, Refinery Corrosion and CP 1, 2 & 3 certification courses of NACE International besides hosting 22 annual conferences. NIGIS recognizes that it must encourage the growth of corrosion science not only as a subject but also as a career through the development of professionals associated with it. To this end, NIGIS started the initiative of ‘Corrosion Awareness Day’. To commemorate Corrosion Awareness Day, NIGIS presents awards to individuals and institutions for their contributions to corrosion awareness and developments in the field of corrosion science and technology.

The Gateway India Section sponsors three student chapters, one each in Mumbai, Delhi and Chennai/Kalpakkam. In 2013, the first NACE student conference for students, CORSYM, was organised by the NIGIS South Zone Student Section.

The U.S. Commercial Service is the trade promotion arm of the U.S. Department of Commerce’s International Trade Administration. U.S. Commercial Service trade professionals in over 100 U.S. cities and in more than 75 countries help U.S. companies get started in exporting or increase sales to new global markets.

Established in 1927, the Federation of Indian Chambers of Commerce and Industry is the largest and oldest apex business organisation in India. Its history is closely interwoven with India’s struggle for independence, its industrial-ization, and its emergence as one of the most rapidly growing global economies. FICCI has contributed to this historical process by encouraging debate, articulating the private sector’s views and influencing policy. A non-government, not-for-profit organisation, FICCI is the voice of India’s business and industry.

FICCI draws its membership from the corporate sector, both private and public, including SMEs and MNCs; FICCI enjoys an indirect membership of over 2,50,000 companies from various regional chambers of commerce.
The economic cost of corrosion exceeds 3% of the world GDP
The health, safety and environment cost is far greater

**Technical Interactive Forums**

Technical Interactive Forums (TIF) on specific topics are scheduled to facilitate discussions between delegates and a panel of experts. TIFs will cover the following topics:

- Corrosion Management
- Marine Corrosion Management
- Water Treatment
- Pipeline Integrity & Management
- Corrosion Monitoring & Testing
- Regulations & Standards in Corrosion
- Corrosion in Petrochemicals & Fertilizer Industries
- Corrosion in the Defence Sector
- Optimum Coating Specifications
- Corrosion in the Automotive Sector
- Reinforced Concrete
- Cathodic and Anodic Protection
- Coatings and Lining
- Materials and Composites
- Microbial Corrosion and Inhibitors
- Corrosion Monitoring and Testing
- Internal Corrosion of Pipelines
- Marine and Offshore Corrosion
- Power Plants and Utilities
- Corrosion in Refinery
- Corrosion in Petrochemical, Chemical and Fertilizer Industries
- Corrosion in Military and Aerospace Systems and Facilities
- Residual Life Assessment in Industries
- Students Session

**NIGIS Corrosion Awareness Awards**

NIGIS Corrosion Awareness Awards are presented to honour and respect individuals/institutions for their contribution to corrosion awareness and developments in the field of corrosion science and technology in India. The awards are presented during the NIGIS Annual Corrosion Conferences since 1995.

NIGIS has so far honoured 104 scientists/teachers/engineers/professionals; 38 students and 23 public/private sector laboratories with its corrosion awareness awards, presented under various categories described in the notice inviting applications for the awards for the year.
