

EDUCATIONAL VIRTUAL TRAINING PROGRAMME

CORROSION IN TANK BOTTOM PLATES & LPG MOUNDED STORAGE VESSELS INCLUDING PLANT PIPING

9th -10th October 2020

ABOUT THE PROGRAMME

An exclusive 2-days online training programme focused on Coatings and Cathodic protection for corrosion protection in Tank Bottom Plates, LPG Mounded Storage Vessels and Plant Piping.

BENEFITS TO PARTICIPANTS

To develop specialised corrosion management knowledge for ensuring integrity of Buried Infrastructure in Exploration companies, Refineries, Petrochemical plants and LPG bottling plants.

TOPICS TO BE COVERED

- Introduction to External Corrosion
- Selection & Application of Corrosion Protection Coatings for Plant Piping & MSVs
- Galvanic Anode & Impressed Current CP systems
- External Corrosion Protection of tank bottom plates of Above Ground Storage Tanks
- CP of LPG Mounded Vessels
- Operation and Maintenance of CP System for Buried Piping, AGST and MSV

FACULTY

The faculty includes professional experts from public sector organizations & other institutions.

CLASS TIMING

09:30 hrs – 14:00 hrs

REGISTRATION

First come first served basis, seats are limited.

WHO SHOULD ATTEND

Personnel engaged in planning, design, construction, installation, testing, inspection and commissioning, monitoring and maintenance of Buried plant piping, Above ground storage tanks and LPG Mounded Bullets

PARTICIPATION CERTIFICATE WILL BE ISSUED

PROGRAMME FEES & ONLINE PAYMENT DETAIL

INR. 5,000 + 18 % GST = INR. 5,900* per delegate

*10% discount to NACE members

*10% group discount for 4 or more employees

* Advance payment is mandatory

Account Details

Beneficiary Account : NACE International India Section

Bank Name : Oriental Bank of Commerce (PNB)

Current Account No : 06321131002218

Account Branch : Powai, Mumbai, India.

Branch Code : 0632

RTGS/NEFT/ IFSC : ORBC0100632
